

Product datasheet for TA320351

ICAM2 Mouse Monoclonal Antibody [Clone ID: CBRIC2/2]

Product data:

Product Type:	Primary Antibodies
Clone Name:	CBRIC2/2
Applications:	FC
Recommend Dilution:	Flow, IHC, Functional Assay, IP, WB
Reactivity:	Human
Host:	Mouse
Clonality:	Monoclonal
Formulation:	Aqueous buffer, 0.09% sodium azide, may contain carrier protein/stabilizer
Concentration:	0.5mg/ml
Purification:	Affinity purified
Gene Name:	intercellular adhesion molecule 2
Database Link:	NP_000864 Entrez Gene 3384 Human
Background:	The CBRIC2/2 monoclonal antibody reacts with human ICAM-2 (CD102). ICAM-2 is a 55-65 kD transmembrane glycoprotein possessing 2 extracellular Ig domains, a single transmembrane domain, and a short 26-amino acid cytoplasmic domain. ICAM-2 is expressed on most leukocytes, and is strongly expressed on vascular endothelial cells. ICAM-2 is a ligand of integrin CD11a/CD18 (LFA-1), and also has been reported to bind integrin CD11b/CD18 (Mac-1). ICAM-2 is an intercellular adhesion molecule involved in lymphocyte homing to sites of inflammation. The CBRIC2/2 antibody has been reported to have blocking activity.
Synonyms:	CD102
Protein Families:	ES Cell Differentiation/IPS, Transmembrane
Protein Pathways:	Cell adhesion molecules (CAMs), Natural killer cell mediated cytotoxicity
